

# Licensee Performance Review (LPR)

**URENCO USA**  
**Eunice, NM**

**April 26, 2018**

# Agenda

- **NRC – Introductions**
- **NRC – Mission**
- **NRC – LPR Process**
- **NRC – Current Performance and LPR Results**
- **URENCO USA – Response to NRC Review**
- **NRC – Public Question and Answer Session**
- **NRC – Closing Remarks**

# **NRC's Mission**

**The NRC licenses and regulates the Nation's civilian use of radioactive materials to protect public health and safety, promote the common defense and security, and protect the environment.**

# LPR Process

- **Review enforcement actions issued during the assessment period to assess safety and security performance.**
- **Identify areas needing improvement (ANIs) and assess licensee actions for open ANI's.**
- **Identify areas requiring additional regulatory oversight.**
- **Communicate results and planned actions to the licensee and the public.**

# LPR Process (continues)

## Performance Areas

- **Safety Operations**
- **Safeguards**
- **Radiological Controls**
- **Facility Support**
- **Other Areas**

# Current Performance
