Withdrawal of Proposed Alternative RR-V-12 Regarding Main Steam Safety Relief Valve Testing

Ladies and Gentlemen:

By letter dated April 9, 2018, Southern Nuclear Operating Company (SNC) submitted proposed Alternative RR-V-12 to adopt Code Case ONM-17. This Code Case was recently approved for unconditional use in Regulatory Guide 1.192, negating the need for SNC's proposed Alternative. Based on this, SNC hereby withdraws Alternative RR-V-12.

This letter contains no NRC commitments. If you have any questions, please contact Jamie Coleman at 205.992.6611.

Respectfully submitted,

C. A. Gayheart  
Regulatory Affairs Director
