

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

November 13, 2018

Mr. Reid Nelson, Director
Office of Federal Agency Programs
Advisory Council on Historic Preservation
401 F Street NW, Suite 308
Washington, DC 20001-2637

SUBJECT: NOTICE OF AVAILABILITY OF THE FINAL SUPPLEMENTAL
ENVIRONMENTAL IMPACT STATEMENT FOR LICENSE RENEWAL OF
RIVER BEND STATION, UNIT 1

Dear Mr. Nelson:

The U.S. Nuclear Regulatory Commission (NRC) has completed the enclosed final NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 58, Regarding River Bend Station, Unit 1." The final Supplemental Environmental Impact Statement (SEIS) is being issued in accordance with the National Environmental Policy Act of 1969, as part of the NRC's process to decide whether to issue a renewed operating license to Entergy Operations, Inc. for River Bend Station, Unit 1 (RBS). In the final SEIS, the NRC staff determined that the adverse environmental impacts of license renewal for RBS are not so great that preserving the option of license renewal for energy planning decision-makers would be unreasonable. Under the provisions of the National Historic Preservation Act of 1966, the NRC staff determined that no historic properties would be adversely affected by this undertaking. The final SEIS will accompany the final Safety Evaluation Report to be considered in the Commission's license renewal decision making process.

If you have any questions regarding this matter, please contact Robert Hoffman, Environmental Scientist, at 301-415-1107 or by e-mail at Robert.Hoffman@nrc.gov.

Sincerely,

/RA/

Benjamin Beasley, Chief
Environmental Review and NEPA Branch
Division of Materials and License Renewal
Office of Nuclear Reactor Regulation
