Warrenville, IL 60555

**SUBJECT: INITIAL OPERATOR LICENSING OPERATING TEST APPROVAL -
CALVERT CLIFFS NUCLEAR POWER PLANT UNITS 1 AND 2**

Dear Mr. Hanson:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations for the operating test at the Calvert Cliffs Nuclear Power Plant Units 1 and 2. Please note that written examination approval will be communicated under separate correspondence.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to Mr. Richard C. Jones, Site Training Director. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC approved the subject operating test in accordance with NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 11 on 7/19/2018. The NRC staff will administer the operating tests during the weeks of 8/6/2018 and 8/13/2018. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at (610) 337-5306.

Please contact your Chief Examiner, Mr. Joseph M. D'Antonio at (610) 337-5085, if you have any questions or identify any errors or changes in the license level Reactor Operator (RO) or Senior Reactor Operator (SRO) or type of examination (partial or complete operating test) specified for each applicant.

Sincerely,

/RA/

Donald E. Jackson, Chief
Operations Branch
Division of Reactor Safety

B. Hanson

**SUBJECT: INITIAL OPERATOR LICENSING WRITTEN EXAMINATION APPROVAL -
CALVERT CLIFFS NUCLEAR POWER PLANT UNITS 1 AND 2**

Dear Mr. Hanson:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing written examinations at the Calvert Cliffs Nuclear Power Plant Units 1 and 2. Please note that operating test approval has been communicated under separate correspondence.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to Mr. Michael Milbradt, Site Training Director. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject written examinations in accordance with NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 11. Your staff will administer the written examinations during the week of August 13, 2018. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this written examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at (610) 337-5306.

B. Hanson
