 - 2) Electronic mail dated October 09, 2018, from B. K. Singal, USNRC, to J. K. Rudeen, WCNOG, "Request for Additional Information - License Amendment Request for Revision to Emergency Plan Wolf Creek Nuclear Operating Corporation Wolf Creek Generating Station Docket Number 50-482"

Subject: Docket No. 50-482: Response to Requests for Additional Information (RAI) Regarding License Amendment Request (LAR) for Revision to the Emergency Plan

To Whom It May Concern:

Pursuant to 10 CFR 50.90, in Reference 1, Wolf Creek Nuclear Operating Corporation (WCNOG) requested an Amendment to the Renewed Facility Operating License No. NPF-42 for Wolf Creek Generating Station (WCGS). The proposed change would revise the Emergency Plan for WCGS to: 1) reduce the number of required Emergency Response Organization (ERO) positions; 2) standardize Technical Support Center (TSC) activation time to 75 minutes; 3) replace the current normal full-time work hours licensed medical practitioner position with First Aid Responders; and 4) remove reference to performing dose assessment using containment pressure indication.

In Reference 2, the NRC provided WCNOG with Requests for Additional Information (RAIs) to support the NRC staff's review of the License Amendment Request (LAR). In a phone call with the NRC Project Manager, a 15 day extension was granted to WCNOG to respond to the RAIs. The attachment to this letter provides WCNOG's responses.
