Subject: Notice of Disbursement from Decommissioning Trusts for Exelon Generation Company, LLC Units

The purpose of this letter is to provide notice of the disbursement of funds from the unit decommissioning trust funds for the Exelon Generation Company, LLC (EGC) units specified in the table below. In accordance with various facility operating licenses, the Master Terms for Trust Agreements Applicable to Second Amended and Restated Qualified Nuclear Decommissioning Master Trust Agreement, dated as of July 1, 2013, between Exelon Generation Consolidation, LLC and The Northern Trust Company, as Trustee and Second Amended and Restated Nonqualified Nuclear Decommissioning Master Trust Agreement, dated as of July 1, 2013, among Exelon Generation Consolidation, LLC (as successor to the NQF Companies identified therein) and The Northern Trust Company, as Trustee, as amended by Amendment No. 1, dated November 23, 2018 (the "Master Terms"), require that Exelon Generation Consolidation, LLC or its designee, EGC, provide thirty (30) working days written notice to the NRC, Director of the Office of Nuclear Reactor Regulation, prior to the disbursement of any funds from the decommissioning trust funds to reimburse EGC for Decommissioning Costs. The Master Terms further provide that no reimbursements from the trust funds will be made for any costs for which the Trustee, Northern Trust, receives written notice of objection from the NRC Director Office of Nuclear Reactor Regulation within the thirty (30) working day review period. Any such notice should be directed to EGC and to the Northern Trust addressed to Stacy Ryband, Vice President, 50 South LaSalle Street, M-28, Chicago, Illinois ([sr90@ntrs.com](mailto:sr90@ntrs.com)). Northern Trust will not make any disbursements from the funds until after thirty (30) working days from the date of this written notice to the NRC. Furthermore, Northern Trust will not make any disbursements for any Decommissioning Costs to which the NRC objects within the 30 working day period or prior to disbursement. Barring any objection from the NRC, EGC will request that Northern Trust make the disbursements noted below for Decommissioning Costs.

The disbursements from the trust funds will reimburse EGC for Decommissioning Costs it incurred in 2017 for decommissioning planning. The amount of Decommissioning Costs to be disbursed from each unit trust fund is specified in the table that appears below. The Decommissioning Costs reflected in the table below were incurred by EGC for decommissioning cost studies. For the Dresden, FitzPatrick, and Quad Cities units, EGC obtained completely updated cost estimates in 2017. In the case of Three Mile Island Unit 1, costs in addition to costs for the decommissioning cost estimates were incurred for radiological decommissioning planning activities, including licensing action preparation, engineering analyses, and system reviews.
