Mr. Christopher G. Miller
Director, Division of Inspection and Regional Support
Office of Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: Request for NRC Endorsement of NEI 96-07, Appendix D, Rev. 0

Project Number: 689

Dear Mr. Miller:

The purpose of this letter is to request that the U.S. Nuclear Regulatory Commission (NRC) review for endorsement the proposed final version of NEI 96-07, Appendix D, "Supplemental Guidance for Application of 10 CFR 50.59 to Digital Modifications," (Agencywide Documents Access and Management System (ADAMS) Accession No. ML18338A389). Revision 0 of NEI 96-07, Appendix D was submitted to NRC on November 30, 2018 following the culmination of a series of public meetings and correspondence to address unique challenges pertaining to the application of Title 10 of the *Code of Federal Regulations* (10 CFR) 50.59 regulatory change process to digital technology implementation. NRC's December 20, 2018 letter (ADAMS Accession No. ML18340A124) to NEI summarizes these interactions.

If there are any questions on this matter, please contact me (seg@nei.org; 202-739-8111) or Kati Austgen (kra@nei.org; 202-739-8068).

Sincerely,

Stephen Geier
Director,
Risk and Technical Support
