February 4, 2019

Mr. Anthony J. Vitale  
Site Vice President  
Entergy Nuclear Operations, Inc.  
Indian Point Energy Center  
450 Broadway, GSB  
P.O. Box 249  
Buchanan, NY 10511-0249

**SUBJECT: INDIAN POINT ENERGY CENTER, UNIT 2 – OPERATOR LICENSING  
WRITTEN EXAM APPROVAL**

Dear Mr. Vitale:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing written examinations at the Indian Point Energy Center, Unit 2. Please note that operating test approval has been communicated under separate correspondence.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications submitted in connection with the examination and separately provided a list of approved applicants to Mr. Leonard Beller, Training Manager.

The NRC has approved the subject written, in accordance with Revision 11 to NUREG-1021, "Operator Licensing Examination Standards for Power Reactors." Your staff will administer the written examinations during the week of February 11, 2019. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensed operators at your facility, do not administer the examination and contact me at 610-337-5306.

Please contact your Chief Examiner, Peter Presby, at 610-337-5392, if you have any questions or identify any errors or changes in the license level (reactor operator or senior reactor operator) or type of examination (partial or complete written examination) specified for each applicant approved to take the examination.

Sincerely,

*/RA/*

Donald E. Jackson, Chief  
Operations Branch  
Division of Reactor Safety
