SUBJECT: UNIVERSITY OF MISSOURI-COLUMBIA – U.S. NUCLEAR REGULATORY
COMMISSION SECURITY RELATED INSPECTION REPORT
NO. 05000186/2019-410

Dear Dr. Robertson:

From February 12-14, 2019, the U.S. Nuclear Regulatory Commission (NRC) conducted a security inspection at the University of Missouri-Columbia Research Reactor facility. The inspection included a review of activities authorized for your facility. The inspection results were discussed on February 14, 2019, with you and members of your staff.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel. Based on the results of this inspection, no findings of non-compliance with the NRC requirements were identified. No response to this letter is required.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) Section 2.390, "Public inspections, exemptions, requests for withholding," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's document system (Agencywide Documents Access and Management System (ADAMS)). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). However, because of the security-related information contained in the inspection report, and in accordance with 10 CFR 2.390(d), the inspection report will not be available for public inspection.

D. Robertson
