In accordance with Title 10 Code of Federal Regulations (CFR) 50.90, Entergy Nuclear Operations, Inc. (Entergy) proposed an amendment to Renewed Facility Operating License (OL) DPR-35 for Pilgrim Nuclear Power Station (PNPS). This proposed license amendment revised the OL and the associated Technical Specifications (TS) to Permanently Defueled Technical Specifications (PDTS) consistent with the permanent cessation of reactor operation and permanent defueling of the reactor (Reference 1).

In Reference 2, Entergy submitted a supplement to the proposed license amendment to reflect the proposed change in ownership from Entergy Nuclear Generation Company and Entergy to Holtec Decommissioning International and Holtec Pilgrim, LLC that had been submitted in Reference 3.
