1. PG&E Letter DCL-19-017, "Request for Exemption from Operator Written Examination and Operating Test," dated March 7, 2019 (ADAMS Accession No. ML19084A285)

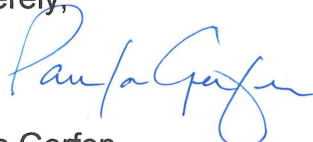

Dear Mr. Nieh:

In Reference 1, Pacific Gas and Electric Company (PG&E) requested an exemption from the requirements of 10 CFR 55.33(a)(2) and 55.31(a)(3) on behalf of a former Diablo Canyon Power Plant senior reactor operator license candidate. The individual had left PG&E after successfully passing the NRC written examination and operating test, and subsequently returned. Upon further consideration and as discussed with the NRC staff, PG&E hereby withdraws the exemption request.

PG&E makes no new or revised regulatory commitments (as defined by NEI 99-04) in this letter.

If the NRC requires additional information regarding this matter, please contact Mr. Adam Peck, Director, Operations Services, at 805-545-6675.

Sincerely,

Paula Gerfen

Mr. Ho Nieh
