Dr. Thomas E. Murley, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: LaSalle County Station Units 1 and 2
Inservice Testing (IST) Program
NRC Docket Nos. 50-373 and 50-374

- References (a): Safety Evaluation Report and Relief of the
IST Program for Pumps and Valves, LaSalle
County Units 1 and 2 (TAC Nos. 63777/54996)
dated August 16, 1988.
- (b): W.E. Morgan letter to USNRC Dated November 16,
1988 transmitting LSCS Units 1 and 2 Response
to Questions from SER Report and Relief of the
IST Program for Pumps and Valves.
- (c): Generic Letter 89-04, dated April 3, 1989
(NL-89-0410).

Dear Dr. Murley:

Reference (a) granted the approval of the LaSalle County Station
Inservice Testing (IST) Program (Revision 0) with the exception of eleven (11)
anomalies. Reference (b) submitted LaSalle County Station's revised IST
Program, (Revision 1) addressing these anomalies. Prior to receiving NRC
feedback on Revision 1 of the LaSalle IST Program, Generic Letter 89-04
(Reference (c)) was issued. Generic Letter 89-04 was reviewed for its impact
on Revision 1 of the IST Program and, based on that review which utilized the
guidance/positions presented in the Generic Letter, LaSalle County Station
has revised its IST Program (Revision 2) to incorporate the concerns of the
Generic Letter.

Implementation of the revised IST Program will require procedure
revisions which are expected to be completed by February 28, 1990.

The following attachment provides the LaSalle County Station Units 1
and 2, Revision 2, IST Program.
