for the period January 1, 1989 through June 30, 1989

Attached is Revision 1 to the Limerick Generating Station (LGS), Unit 1 Semi-Annual Effluent Release Report No. 10, which covered the period from January 1, 1989 to June 30, 1989. The extent of this revision is limited to the three (3) pages that make up attachment II.C "Solid Waste Disposition Report". This attachment has been revised to reflect new values provided by our solid radwaste vendor. Therefore, please use these three (3) pages to replace those in the original report.

The original report was submitted by letter dated August 29, 1989, in accordance with LGS Technical Specifications Section 6.9.1.8 and 10CFR50.36a(a)(2). At that time, the expectation of a revision to Report No. 10 was noted in the cover letter.

Very truly yours,
