

Wisconsin Electric POWER COMPANY
231 W. MICHIGAN, P.O. BOX 2046, MILWAUKEE, WI 53201

October 7, 1981

Mr. H. R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. NUCLEAR REGULATORY COMMISSION
Washington, D. C. 20555

Attention: Mr. R. A. Clark, Chief
Operating Reactors Branch 3

Gentlemen:

DOCKET NOS. 50-266 AND 50-301
ADDITIONAL INFORMATION
IE BULLETIN 80-11, MASONRY WALLS
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

On June 9-11, 1981, members of your Staff met with Wisconsin Electric and our consultants at the Point Beach Nuclear Plant to conduct an onsite review and audit of our responses to IE Bulletin No. 80-11. Discussions were held during this meeting to resolve differences between the NRC Staff's design criteria and the criteria used by Wisconsin Electric in evaluating the Point Beach masonry walls. The result of these discussions was the formulation of 21 action items which, when complete, would resolve the NRC's concerns regarding the analysis of masonry walls at the Point Beach Nuclear Plant. These action items were formally transmitted to us with Mr. Colburn's summary of meeting minutes dated July 1, 1981.

Our letter of September 15, 1981 transmitted responses to action items 5, 7, 9, 11, and 16 of Mr. Colburn's summary. Responses to action items 1, 4, and 6 were not yet complete. The enclosures to this letter provide our responses to these remaining items, as well as revisions to our responses to action item Nos. 5 and 11. Also included are additional copies of our July 15, 1981 responses, as requested by Mr. Colburn.

Please contact us if you have any questions regarding this information.

Very truly yours,

C. W. Fay, Director
Nuclear Power Department
