ULNRC-2171

Dear Sir:

**Docket No. 50-483**  
**Callaway Plant**  
**Facility Operating License NPF-30**  
**Regulatory Effectiveness Review Report**

The subject was addressed by our response ULNRC-2115, dated December 4, 1989. In that response, we projected an installation date of April 15, 1990 for RER concern 2.6.1.

This item has required the purchase of safety related structural members from a qualified vendor. Projected delivery date on this material has resulted in a revised installation date of May 31, 1990.

As previously indicated, the noted deficiency will be under continuous surveillance until the correction is made.

Very Truly Yours,

Donald F. Schnell
