RESPONSE TO NRC INSPECTION REPORT 50-325/90-13 AND 50-324/90-13

Gentlemen:

The corrective action described in paragraph 16 of the Exercise Evaluation is correct with the exception of the date. The correct date for the remedial exercise is June 22, 1990, as agreed upon by the state, counties, FEMA, NRC, and CP&L. The Brunswick Nuclear Project has also conducted nine communication drills, with one more scheduled for training purposes prior to the remedial drill.

Corrective action for Item Number 50-325, 324/90-13-02 (accountability) has been started. Procedures will be revised by July 6, 1990 to ensure an adequate accountability for all personnel within the protected area. The appropriate training/drills will be completed to allow for a demonstration by August 31, 1990.

Very truly yours,

J. L. Harness, General Manager
Brunswick Nuclear Project
