

July 2, 1990

Docket No. 50-302

Mr. Percy M. Beard, Jr.
Senior Vice President, Nuclear Operations
Florida Power Corporation
ATTN: Manager, Nuclear Operations
Licensing
P.O. Box 219-NA-2I
Crystal River, Florida 32629

Dear Mr. Beard:

SUBJECT: CRYSTAL RIVER UNIT 3 - GENERIC LETTER 83-28, ITEM 2.2 PART 1
(TAC 53664)

Generic Letter 83-28, Item 2.2.1 required licensees to describe their program for properly classifying all safety-related components on documents and in information handling systems used to control plant activities affecting those components. Florida Power Corporation responded to this generic letter item in submittals dated November 4, 1983 and July 31, 1984. We have evaluated these submittals and, as described in the enclosed Safety Evaluation (Enclosure 1) and our contractor's Technical Evaluation Report EGG-NTA-7315 (Enclosure 2), find that they are acceptable.

This completes our effort on TAC 53664. Part 2 of Item 2.2 will be handled separately after receipt of your response to Generic Letter 90-03.

Sincerely,
Original signed by

Harley Silver, Project Manager
Project Directorate II-2
Division of Reactor Projects-I/II
Office of Nuclear Reactor Regulation
