Washington, D. C. 20555

Subject: License Amendment Application to Revise the Facility Operating License to Add Centerior Service Company as a Licensee (TAC Number M77030)

Gentlemen:

Enclosed is an application for an amendment to the Davis-Besse Nuclear Power Station (DBNPS) Unit Number 1 Operating License Number NPF-3 to reflect the change attached. The proposed change involves the addition of Centerior Service Company as a licensee in the Facility Operating License.

As indicated in the letter dated April 27, 1990, from Richard A. Miller, Chairman and Chief Executive Officer of Centerior Service Company, to Dr. Thomas E. Murley, Centerior Energy Corporation has adopted a reorganization plan for itself and its subsidiaries (The Toledo Edison Company, The Cleveland Electric Illuminating Company and Centerior Service Company). Under this reorganization, the Toledo Edison nuclear organization reports to the existing Centerior Service Company. To accomplish this change in reporting, the Toledo Edison Vice President, Nuclear is now titled the Centerior Service Company Vice President, Nuclear - Davis-Besse, and reports to the Centerior Service Company's Executive Vice President-Power Generation. All subordinate personnel remain Toledo Edison employees. Under the reorganization the Toledo Edison nuclear organization will continue to have clear and direct lines of responsibility and authority.

This license amendment application proposes that License Number NPF-3 be amended to reflect this reorganization by designating both Toledo Edison and Centerior Service Company as licensees authorized to possess, use and operate the DBNPS, with the Toledo Edison nuclear organization reporting to the Centerior Service Company Vice President, Nuclear - Davis-Besse.

Page 2

The change reflected in the proposed amendment allows for improved management oversight, control and uniformity of the nuclear operations within the Centerior Energy Corporation. As discussed in the enclosed application, the change does not alter the existing financial or technical qualifications for the DBNPS.

Toledo Edison requests that this amendment be issued by September 28, 1990, for implementation within 45 days.

If you have any questions regarding this amendment request, please contact Mr. R. W. Schrauder, Manager - Nuclear Licensing, at (419) 249-2366.

Very truly yours,

Fred J. Lange, Jr.
Vice President
The Toledo Edison Company
Vice President - Legal and
