Docket Nos. 50-413 and 50-414
Technical Specification Amendment

Gentlemen:

My letter dated March 11, 1988 submitted a proposed amendment to Technical Specification Table 3.3-3, item 8.f. The proposed change clarified the number of instrumentation channels associated with the Main Feedwater Pumps that initiate Auxiliary Feedwater.

Duke Power has determined that this change is not necessary, and is withdrawing the proposed amendment.

Very Truly Yours,
