SUBJECT: DOCKET NO. 50-333  
LICENSEE EVENT REPORT: 89-012-00  
Postulated Fault 4KV Bus Fault

Dear Sir:

The referenced LER was submitted on August 11, 1989. At that time, a supplemental report defining long-term corrective action was expected to be submitted on June 30, 1990, approximately six weeks after scheduled completion of the refueling outage. Because the outage was not completed until June 24th, the final determination of long-term corrective action for this LER has been delayed. The supplemental report defining long-term corrective action is now expected to be submitted by September 4, 1990.

Very truly yours,

  
WILLIAM FERNANDEZ
