Gentlemen:

Subject: NRC Region I Resident Inspection Report Nos. 50-317/90-23 and
50-318/90-23 (August 12, 1990, to September 15, 1990)

This report transmits the findings of the routine resident inspection conducted at the Calvert Cliffs Nuclear Power Plant. At the conclusion of the inspection, these findings were discussed with Mr. Denton of your staff.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

The controlled plant drawing deficiencies discussed in this report had been identified as a concern both in your Unit 1 Startup Assessment Report, dated May 29, 1990, and in NRC Inspection Report 50-317/90-08 and 50-318/90-08, dated June 4, 1990. Our review of this issue indicates that your efforts to date have not been fully successful. We encourage your continued attention to this matter.

Within the scope of this inspection, no violations were observed.

Your cooperation with us is appreciated.

Sincerely,
ORIGINAL SIGNED BY:
CURTIS J. COWGILL
