DOCKET 50-255 - LICENSE DPR-20 - PALISADES PLANT -
REVISION 26 TO THE PALISADES SECURITY PLAN

Attached are one original and three copies of Revision 26 to the Palisades Security Plan. This revision includes a new Appendix F to be added to the Plan which describes temporary security changes required by a modification to the Palisades Security Building and replacement of the Plant's Steam Generators.

These temporary security changes are being made under the guidance of Chapter 10 of the Palisades Security Plan titled "Special Security Measures During Construction Operations". This revision serves as notification of these changes.

Because the security revisions described in the attachment are temporary (effective only during construction activities), and in lieu of temporarily revising the main body of the security plan, Consumers Power has chosen to include the revisions in the form of an appendix. Sections of the appendix may contradict statements contained in the main body of the security plan. In such cases, the statements within the appendix shall take precedent.

Consumers Power Company requests the attachment to this letter be withheld from public disclosure since it contains information which is exempt from disclosure in accordance with 10CFR73.21(c).
