REFERENCE: Docket No. 50-333
NRC Region I Inspection Report No. 50-333/90-15

SUBJECT: REVIEW OF EMERGENCY PLAN INITIATING CONDITIONS IN
RESPONSE TO UNRESOLVED ITEM 89-11-03

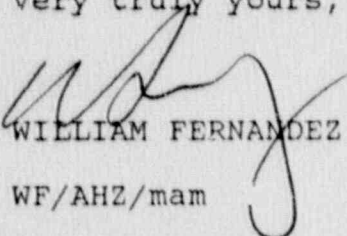

The referenced inspection report noted, as part of Unresolved Item 89-11-03, that a proposed revision to the Emergency Plan containing initiating conditions as outlined in NUREG-0654 would be presented to the Plant Operating Review Committee (PORC) and subsequently to the NRC for review and approval.

Enclosed is proposed revision 6 to procedure IAF-2, Classification of Emergency Conditions*. The revision incorporates changes which assure all applicable initiating conditions as specified in NUREG-0654 are addressed.

To facilitate review of the IAF-2 procedure with NUREG-0654 initiating conditions, a cross reference has also been provided.

If you have any questions, please contact Art Zaremba of my staff at (315) 349-6773.
