Personnel Change  
Shoreham Nuclear Power Station - Unit 1  
Docket No. 50-322

Ref: LILCO (A.F. Earley, Jr.) Letter to NRC (W. Russell) dated  
July 5, 1989

Gentlemen:

In keeping with our commitment to provide the NRC Staff with timely information concerning personnel changes, LILCO announces the following change:

**J. G. Wynne**, the prior Operator Training Supervisor in the Training Department within the Office of Corporate Services is promoted to the position of SNPS Operations Division Manager.

This change became effective August 27, 1990.

Please be advised that LILCO has reviewed the change to ensure that qualified personnel continue to carry out the duties and responsibilities of the position described in licensing basis documents such as the SNPS Updated Safety Analysis Report. LILCO concludes, with one exception, that the person designated to carry out the duties and responsibilities of the position described above meets or exceeds the qualification requirements described in the licensing design basis. For the position of Manager, Operations Division, the designated individual does not fully meet the statement of qualifications in Section 13.1.3.2 of the USAR, since he has not participated in the management activities of an operating nuclear power plant during two months operations above 20% power or a routine refueling outage.

In accordance with the referenced letter LILCO will maintain Shoreham in a shutdown condition until it is transferred to an agency of the State of New York. Should this situation change, LILCO will ensure that its qualification commitment for Manager Operations Division is fulfilled or justifiably reduced. Until we are able to transfer Shoreham to LIPA or an agency of the State of New York, LILCO concludes that the designated individual can acceptably carry out the duties and responsibilities of this position and that his lack of operating experience, as described above, has no safety significance at Shoreham because the plant will be maintained in a shutdown condition.

Should you have any questions concerning these changes please do not hesitate to contact my office.

Very truly yours,

John D. Leonard, Jr.  
Vice President Office of Corporate Services  
and Office of Nuclear
