

Docket No. 50-293

October 17, 1990

Mr. Ralph G. Bird
Senior Vice President - Nuclear
Boston Edison Company
Pilgrim Nuclear Power Station
RFD #1 Rocky Hill Road
Plymouth, Massachusetts 02360

Dear Mr. Bird:

SUBJECT: RESPONSE TO GENERIC LETTER 90-03 FOR PILGRIM NUCLEAR POWER STATION
(TAC. NO. 76276)

On March 20, 1990 the NRC issued Generic Letter (GL) 90-03 "Relaxation of Staff Position in Generic Letter 83-8, Item 2.2 Part 2 'Vendor Interface for Safety-Related Components.'" The GL requested that all licensees and applicants review their present vendor interface programs and modify them as necessary using the guidance supplied in GL.

By letter dated October 12, 1990, you responded to Generic Letter 90-03 and indicated that the programs will be implemented as scheduled in your Long Term Plan (LTP). The staff has reviewed your response and finds it acceptable.

Your LTP indicates a 36 month project to complete the Technical Information Library (TIL) which was started in January, 1990. Additionally, the LTP states that completion of the TIL represents completion of your action under Vendor Interface Program. The staff finds the schedule acceptable. Any changes to the schedule should be the subject of correspondence to the NRC in addition to a LTP update.

TAC No. 76276 is closed based on your LTP commitment.

Sincerely,

Original signed by:

Ronald Eaton, Senior Project Manager
