Docket Nos. 50-313 and 50-368
License Nos. DPR-51 and NPF-6
Change to the Industrial Security Plan, Revision 29

Gentlemen:

ATTACHMENT CONTAINS SAFEGUARDS INFORMATION
UPON SEPARATION THIS PAGE IS DECONTROLLED

In accordance with 10CFR50.4, enclosed is the original plus three copies (Copy Nos. 1-4) of Revision 29 to the Arkansas Nuclear One (ANO) Industrial Security Plan (ISP). Copies 5 and 6 are submitted concurrently to NRC Region IV. The primary reason for this revision is to rework Section 8, "Special Security Measures During Refueling, Major Maintenance or Construction Operations," to add guidance regarding the devitalization and revitalization of vital equipment during refueling outages, include provisions for allowing temporary alterations to the protected area to accommodate major construction projects and delete obsolete and/or redundant material.

Section 7, "Response to Security Contingencies," is revised to combine referenced contingency procedures into a single source document. In addition, a paragraph has been added to Section 7 which describes decisions and actions of the security force in response to a security event involving surface vehicle-carried bombs.

Section 3.1.5.2.2 is reworded to define a Non-Licensee Designated Vehicle (NDV) and to clarify the relationship between NDVs and the vehicle escort guidelines provided in NUREG-0908, section 5.4.2, Revision 1, dated May 1985.

Other revisions consist of rewording as a result of the changes made to Section 8, minor rewording for clarity, and corrections or changes to drawings or tables. A detailed description of changes is included in Attachment 1.

**SAFEGUARDS
INFORMATION**

In accordance with 10CFR50.54(p), it was determined by Entergy Operations that the changes do not decrease the safeguards effectiveness of the plan and, therefore, have been implemented without prior NRC approval.

The attached material describes current and proposed security measures; therefore, Entergy Operations has determined that the attached documentation contains safeguards information as specified by 10CFR73.21. The attached documentation should be handled accordingly.

Very truly yours,

Dwight C. Mims
Director, Licensing
