To Whom It May Concern:

Enclosed is the final After Action Report/Improvement Plan for the Limerick Generating Station Radiological Emergency Preparedness Plume Exercise that was held on November 19, 2019. This report also includes the Mass Care Assessments that were conducted on September 13 and the Out of Sequence Exercises that were conducted on October 23, November 19, and November 20, 2019.

The evaluation of this exercise determined that there was one Level II Finding which was successfully re-demonstrated during the exercise on November 19, 2019. There were two Plan Issues identified. Also, there was one Level 1 Finding identified during the exercise on November 19, 2019. In accordance with Appendix 1 to 44 CFR 350, a Level 1 Finding requires a remedial exercise to be conducted within 120 days of the exercise. On January 14, 2020, during the remedial exercise, Skippack Township successfully re-demonstrated the Level 1 Finding. Skippack Township successfully implemented protective actions for persons with disability and/or access and functional needs; demonstrated adequate direction & control by leadership; implemented appropriate emergency worker exposure control measures; demonstrated adequate mobilization and staffing; and implemented traffic & access control posts in accordance with plans and procedures.

If you have any questions, please contact Lilian Hutchinson at (215) 931-5510.

Sincerely,

MaryAnn Tierney
Regional Administrator
