November 23, 1983

Mr. J. G. Keppler, Regional Administrator
 Region III
 U.S. Nuclear Regulatory Commission
 799 Roosevelt Road
 Glen Ellyn, IL 60137

Dear Mr. Keppler:

Docket 50-305
 Operating License DPR-43
 Kewaunee Nuclear Power Plant
 Revisions to the Kewaunee Nuclear Power
 Plant Industrial Security Manual

Attached please find six copies of the recently revised pages and the newly created appendix to the Industrial Security Manual (ISM).

The revised pages reflect the change in title of the individual with responsibilities for the security program development. A narrative description of the change is provided in Attachment A and the affected pages are included in Attachment B. Please note that each change is highlighted with revision bars.

The newly created appendix, Appendix B, has been added to the ISM to provide a description of the interim security measures to be implemented during construction of the new materials warehouse annex. WPSC anticipates that Appendix B will be effective until late spring or early summer 1984, when construction of the annex will be nearing completion. Appendix B is being transmitted to you as Attachment C to this letter. A description of the Appendix has also been included in Attachment A to aid in your review.

WPSC has determined that these changes do not decrease the safeguards effectiveness of the Industrial Security Plan and are therefore submitted under the provisions of 10CFR50.54(p).
