Maine Yankee Atomic Power Company
Maine Yankee Independent Spent Fuel Storage Installation
NRC License No. DPR-36 (NRC Docket No. 50-309)

Subject: 10 CFR 50.59 Biennial Report

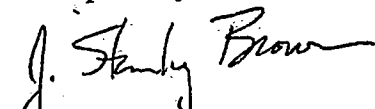

In accordance with 10 CFR 50.59(d)(2), Maine Yankee Atomic Power Company (Maine Yankee) is required to submit to the NRC a brief description of any changes, tests or experiments made pursuant to 10 CFR 50.59(c), including a summary of the evaluation of each. This report covers the period from April 1, 2018 to March 31, 2020.

No changes were made to the facility or the spent fuel storage cask design or procedures, and no tests or experiments were conducted that required the performance of a 10 CFR 50.59 Evaluation pursuant to 10 CFR 50.59(c). Any changes made and tests or experiments conducted during this reporting period did not constitute "changes" as defined in 10 CFR 50.59 and were therefore "screened out." As such, a summary of those changes, tests, or experiments is not required to be submitted to the NRC.

This letter contains no commitments.

If you have any questions regarding this submittal, please do not hesitate to contact me at (207) 882-1303.

Respectfully,

J. Stanley Brown, P.E.
ISFSI Manager
