Docket Nos. 50-413 and 50-414
1995 FSAR Update

Pursuant to 10 CFR 50.71(e), please find enclosed the original and ten copies of the 1995 updated Catawba Nuclear Station Final Safety Analysis Report (FSAR).

While the effective date of changes provided by this submittal is November 30, 1995, certain significant revisions subsequent to November 30, 1995 have been incorporated in an effort to maintain the FSAR as up-to-date as possible.

Duke Power has recently initiated an aggressive effort to examine the adequacy of the company's FSAR update process and plans to pursue additional measures to initiate a detailed accuracy and completeness review. Accordingly, based on the outcome of these efforts, it may become necessary to submit additional updates to Catawba's FSAR prior to the next scheduled update.

I certify that I am a duly authorized officer of Duke Power Company, and that the information contained herein accurately presents changes made to the Catawba Nuclear Station FSAR since the previous submittal, necessary to reflect information and analysis submitted to the Commission or prepared pursuant to Commission requirement.
