PNPS - Mark I Containment Long Term Program

Dear Sir:

Your letter of January 30, 1985 (BECO #1.85.032) requested submission of any Technical Specification changes required as a result of Mark I Containment modifications. Please be advised that we have submitted all required changes, which have been approved by NRC as PNPS Tech. Spec. Amendments #53, dated 12/10/81, and #83, dated 11/7/84.

Vacuum breakers are considered a separate issue by BECO, and are being addressed under the purview of Generic Letter 83-02. We have completed all the requirements of the Mark I Program.

Should you have any questions, please do not hesitate to contact us.

Very truly yours,

*WD Harrington*
