Revision of A-46 Submittal Date

This letter confirms the change in the date for submittal of the report summarizing the results of our A-46 review. The report submittal date is changed from June 30, 1996 to September 30, 1996. As discussed with Mr. Alan Wang, Pilgrim NRC Project Manager, this change is needed to finalize aspects of the safe shutdown equipment list and associated outlier relays based upon the validation exercises with our operations group and simulator review. Also, as suggested by Mr. Wang, our summary report will include a schedule for resolution of any outliers including a basis for the appropriateness of the schedule.
