GEORGIA TECH 1885-1985

DESIGNING TOMORROW TODAY

May 7, 1985

Dr. Cecil O. Thomas, Chief
Standardization and Special Projects Branch
Division of Licensing
Nuclear Regulatory Commission
Washington, D.C. 20555

Reference: Docket No. 50-160

Dear Dr. Thomas:

On behalf of the Georgia Institute of Technology, I hereby request that the deadline for full implementation of the approved emergency plan be extended from June 14, 1985 to October 14, 1985--an extension of about 120 days. This extension is needed because in the development of the various emergency procedures, it became clear that physical modification to the facility may be necessary. It is not possible for us to fully implement the plan by June 14, 1985.

We have implemented some portions of the plan. We will continue to increase our implementation with a goal of full implementation as soon as is possible. We will, of course, inform you of the date of complete implementation.

If you have any questions please let me know.

Sincerely yours,

R.A. Karam
Interim Director
Nuclear Research Center
