

ENCLOSURE 1

NOTICE OF VIOLATION

Duke Power Company
McGuire Units 1 and 2

Docket Nos. 369 and 370
License Nos. NPF-9 and NPF-17

During an Nuclear Regulatory Commission (NRC) inspection conducted on November 15, 1992 through December 19, 1992, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violation is listed below:

10 CFR 50, Appendix B, Criterion V, and the licensee's accepted Quality Assurance Program (Duke Topical Report, Duke-1-A), Section 17.3.2.14, require that activities affecting quality shall be prescribed by documented instructions, procedures, or drawings, of a type appropriate to the circumstances and shall be accomplished in accordance with these instructions, procedures, or drawings.

The licensee's procedure, Station Directive 2.8.1, Problem Investigation Process, paragraph 5.2.5.2.2 requires that a Problem Investigation Report (PIR) resolution be sufficiently detailed to clearly identify the root cause, when possible, and identify actions necessary to prevent recurrence.

Contrary to the above, on November 5, 1992, the licensee completed PIR-0-M92-0140 without identifying a root cause or actions necessary to prevent recurrence. This resulted in no preventive corrective actions being implemented as a result of a wiring configuration control problem affecting operability of a radioactive effluent monitor.

This is a Severity Level IV (Supplement 1) Violation.

Pursuant to the provisions of 10 CFR 2.201, Duke Power Company is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region II, a copy to the NRC Resident Inspector, at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or demand for
