Dear Mr. Lundvall:

SUBJECT: DRAFT TECHNICAL EVALUATION REPORT (TER) FOR SALEM ATWS ITEM 1.2
(GENERIC LETTER 83-28) POST TRIP REVIEW: DATA AND INFORMATION
CAPABILITY

The staff has completed a preliminary review to assess the completeness and adequacy of licensee responses to Generic Letter 83-28 Item 1.2. For the Calvert Cliffs Units 1 and 2, your response was found to be incomplete in four of the areas evaluated.

The TER, contained in Enclosure 1, provides a technical evaluation representing the staff's initial judgment of the areas evaluated.

In order to preserve our present review schedule, we would appreciate your cooperation in obtaining additional information that will permit us to complete our review. It would appear that the needed information on your facility could be obtained by telephone conference within one week of your receipt of the DRAFT TER. In this regard, the summary contained in Enclosure 2 may prove helpful. Your project manager will be working with you to arrange an acceptable time to conduct the necessary conference calls.

Sincerely,

Edward J. Butcher, Acting Chief
Operating Reactors Branch No. 3
Division of Licensing
