Gentlemen:

In the Matter of)	Docket Nos. 50-327
Tennessee Valley Authority)	50-328

SEQUOYAH NUCLEAR PLANT (SQN) - SUPPLEMENTAL RESPONSE TO REQUEST FOR ADDITIONAL INFORMATION - TECHNICAL SPECIFICATION (TS) CHANGE REQUEST 96-01 ON CONVERSION TO FRAMATOME COGEMA FUEL (TAC NOS. M95144 AND M95145)

Reference: TVA letter to NRC dated February 7, 1997, on the above subject.

The purpose of this letter is to provide supplemental information to NRC for the TVA responses to NRC's request for additional information in the referenced letter. In addition, responses to six additional questions that were obtained during telephone conversations and meetings between February 20 and 27, 1997, are included in this letter.

The above reference provided responses to 36 NRC questions. NRC determined that no additional information to these responses was necessary with the exception of the responses to Questions 1, 2, 7, 8, 11, 12, 15, 20, 23, 25, 27, 28, 30, 31, 32, and 33. Enclosure 1 provides the proprietary version of the revised responses to these questions (except for Question 1) as requested by NRC during a meeting between TVA and NRC on February 27, 1997 in the NRC Rockville offices and a telephone call on February 3, 1997. The revised response to Question 1 will be submitted under a separate letter to NRC at a later date. Enclosure 2 contains the non-proprietary version of the revised responses. Enclosure 3 provides the proprietary version of the responses to the six additional questions that are numbered 37 through 42. Enclosure 4 contains the non-proprietary version of the additional responses.

Since Enclosures 1 and 3 provide information which is proprietary to Framatome Cogema Fuels (FCF), Enclosure 5 contains the application for withholding and affidavit signed by FCF, the owner of the information. The application for withholding and the affidavit set forth the basis on which the information may be withheld from public disclosure by NRC and address with specificity the considerations listed in Section 2.790, Paragraph (b)(4) of the NRC regulations.

Accordingly, it is respectfully requested that information which is proprietary to FCF be withheld from public disclosure in accordance with 10 CFR, Section 2.790, of the NRC regulations.

Correspondence with respect to the proprietary aspects of Enclosures 1 and 3 or the supporting FCF affidavit should be addressed to J. H. Taylor, Manager of Licensing Services, Framatome Cogema Fuels, P. O. Box 10935, Lynchburg, Virginia 24506-0935

Please direct questions concerning this issue to Keith Weller at (423) 843-7527.

Sincerely,

R. H. Shell
Site Licensing and Industry Affairs Manager
