

AUG 14 1985

Docket No. 50-373
Docket No. 50-374

Mr. Dennis L. Farrar
Director of Nuclear Licensing
Commonwealth Edison Company
Post Office Box 767
Chicago, IL 60690

Dear Mr. Farrar:

As indicated in Inspection Reports No. 50-373/85008; 50-374/85008, submitted to you by our letter dated April 9, 1985, the issue of the adequacy of the compensatory measures for the failure of the security computers relative to the vital areas was being forwarded to Headquarters for resolution.

In reviewing this issue with the Office of Nuclear Material Safety and Safeguards, it has been determined that to resolve the outstanding issue, the security plan for the LaSalle Station should be revised to provide for more appropriate compensatory measures for computer outages. NUREG 1045, "Guidance on the Application of Compensatory Measures for Power Reactor Licensees," dated January 1984, provides guidance for these measures.

This issue was discussed with Mr. T. Borzum, Security Administrator, LaSalle Station on August 7, 1985.

Should you or your staff have any further questions concerning this matter, please contact D. A. Kers at (312) 790-5643.

Sincerely,

W. L. Axelson
W. L. Axelson, Chief
Nuclear Materials Safety
and Safeguards
