Docket Nos. 50-440  
 and 50-441

The Cleveland Electric Illuminating Company  
 ATTN: Mr. Murray R. Edelman  
 Vice President, Nuclear Group  
 P.O. Box 5000  
 Cleveland, Ohio 44101

Gentlemen:

As you are aware, 10 CFR 170 of the Commission's regulations for license and inspection fees was revised effective June 20, 1984. Section 170.12(b) of the revised rule provides that for applications for permits, licenses, facility reference design approvals, and special projects which have been on file with the Commission for review for six months or longer, billings would be made at six-month intervals or when the review is completed, whichever is earlier.

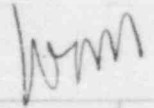

Consistent with the requirements of 10 CFR 170.12(b), we have completed the cost analysis for the Perry 1 and Perry 2 OL application reviews for the period June 24, 1984 through December 22, 1984. The costs through that period are \$661,802 for Perry 1 and \$279,680 for Perry 2. The enclosures show a breakdown of the review costs by program office. The Office of Resource Management has been notified to bill your Company for these amounts. When making payment, please make reference to the bill numbers.

Sincerely,  
 Original Signed by  
 Wm. O. Miller
