BRUNSWICK STEAM ELECTRIC PLANT, UNIT NOS. 1 AND 2
DOCKET NOS. 50-325 AND 50-324
LICENSE NOS. DPR-71 AND DPR-62
CORRECTION TO MONTHLY OPERATING REPORTS

Gentlemen:

By letter dated December 12, 1996 (Serial: BSEP 96-0451), and in accordance with Technical Specification 6.9.1.11 for the Brunswick Steam Electric Plant (BSEP), Unit Nos. 1 and 2, Carolina Power & Light (CP&L) Company submitted the operating statistics and shutdown experience information for the month of November 1996. Subsequently, by letter dated January 14, 1997 (Serial: BSEP 97-0015), CP&L submitted the operating statistics and shutdown experience information for the month of December 1996.

CP&L has determined that the BSEP Unit No. 1 Gross Thermal Energy Generation (Megawatt-hours) data reported on Line 16 in the November 1996 and December 1996 reports is incorrect. The calculations used to generate the reported year-to-date and cumulative Gross Thermal Energy Generation values inappropriately applied the uprated thermal power level to the year-to-date and cumulative Gross Thermal Energy Generation data. Replacement pages for the November 1996 and December 1996 reports, with corrected year-to-date and cumulative Gross Thermal Energy Generation values for BSEP Unit No. 1, are provided as Enclosures 1 and 2, respectively.

Please refer any questions regarding this submittal to Mr. Mark Turkal, Supervisor - Licensing at (910) 457-3066.

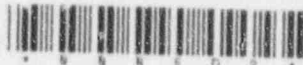

Sincerely,

IE241

Keith R. Jury
