Gentlemen:

This refers to the inspection conducted by Messrs. W. D. Johnson and C. C. Harbuck of this office during the period December 1-31, 1985, of activities authorized by NRC Operating Licenses DPR-51 and NPF-6 for Arkansas Nuclear One, Units 1 and 2, and to the discussion of our findings with Mr. J. M. Levine, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included operational safety verification, maintenance, surveillance, followup on previously identified items, followup on licensee event reports, followup on Three Mile Island Action Plan requirements, IE Circular review, procurement program implementation, containment purge, and control room ventilation. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. The findings are documented in the enclosed inspection report.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. Consequently, you are required to respond to these violations, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter. A written response is not required for the violation involving a broken chain on a locked valve, since adequate corrective action was taken and confirmed during this inspection period.

During this inspection, it was found that certain of your activities appeared to deviate from commitments made to the NRC. This item and references to the commitments are identified in the enclosed Notice of Deviation. You are
