Dear Mr. Carey:

Subject: Beaver Valley Unit 1 Request for Additional Information to Justify Implementation of DCRDR Results (Tac No. 56102)

By letter dated November 29, 1985, you submitted your Detailed Control Room Design Review (DCRDR) Summary Report. In the report, you provided a proposed implementation deadline of the end of the 7th refueling outage ( Fall 1989).

Our review of other utilities' submittals shows that implementation deadlines fall within the 1987-1988 period, but none as late as 1989. In general, implementation should be completed within two refueling outages after the DCRDR summary report was submitted.

You are, therefore, requested to provide additional justification for your proposed implementation date. You may discuss this matter with us at the scheduled February 13, 1986 meeting on DCRDR. In any event, your written response should be submitted no later than March 10, 1986.

Sincerely,

*[Signature]*
