Gentlemen:

This refers to the inspection conducted by Mr. W. R. Bennett of this office during the period July 5-31, 1988, of activities authorized by NRC Operating License DPR-46 for Cooper Nuclear Station and to the discussion of our findings with Mr. G. R. Horn and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included Licensee Event Report followup, operational safety verification, monthly surveillance and maintenance observations, radiological protection, and security. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspector. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

*LJ*  
L. J. Callan, Director  
Division of Reactor Projects
