Fitness for Duty

---

On Thursday, April 22, 1999, Baltimore Gas and Electric Company made a voluntary call to the NRC Operations Center (Event No. 35619) concerning a Nuclear Regulatory Commission-licensed operator who, following a random fitness-for-duty test, was determined to be just below the reportable limits for 10 CFR 26.73 for influence of alcohol.

Additional information is being made available in Attachment (1), Licensed Operators Fitness-for Duty Questionnaire. Specifics of personal information are contained in Attachment (2), which we request be withheld from public disclosure in accordance with the provisions of the Privacy Act and 10 CFR 2.790 Should you have questions regarding this matter, we will be pleased to discuss them with you.

Very truly yours,

for  
C. H. Cruse  
Vice President - Nuclear Energy

ANSWERS TO THE LICENSED OPERATORS  
FITNESS-FOR-DUTY QUESTIONNAIRE

---

1. *Name and responsibilities of the operator.*

The name is being withheld from public disclosure as provided for by 10 CFR 2.790 and the Privacy Act.

2. *A summary of the operator's entire fitness-for-duty testing history. Please include the dates and times the operator was tested, the reasons for the tests (i.e., random, for-cause, or follow-up), the results of the tests, and the dates that any tests were confirmed positive.*

All fitness-for-duty tests were random tests:

5/10/95	Negative
11/11/96	Negative
4/17/98	Negative
9/11/98	Negative

3. *Whether the operator consumed alcoholic beverages within the protected area. If so, please provide the details of the circumstances surrounding such consumption.*

The operator did not consume alcoholic beverages within the protected area.

4. *Whether the operator was at the controls or supervising licensed activities while under the influence of alcohol. If so, please provide the details of the operator's performance of licensed duties while under the influence of alcohol.*

The operator participated in watch relief that included a walkdown of the control boards reviewing the Unit status and receiving Unit status turnover information from the off-going watchstanders. He assumed the duties of the Reactor Operator. He did not have any assigned activities from the time he assumed the watch until he reported for random screening

5. *Whether the operator was involved in procedural errors related to this occurrence. If so, please provide the details of the procedural errors and the consequences of the errors.*

The operator was not involved in any procedural errors related to this occurrence.

6. *Your intentions with regard to the operator's resumption of duties under the 10 CFR Part 50 and Part 55 licenses, including your plans for follow-up testing.*

Access authorization to the protected area was suspended until he had an Employee Assistance Program evaluation and an evaluation as it related to access authorization by Baltimore Gas and Electric Company's psychologist and Employee Assistance Counselor. He is attending an inpatient treatment and education program, and will have weekly follow-up appointments with the Baltimore Gas and Electric Company psychologist, and will be placed in an accelerated testing program that mirrors the follow-up testing for individuals with a second drug positive in 10 CFR 26.27(b)(4).

The individual is cooperating with all aspects of the treatment plan. His access will remain suspended until certification of completion of initial treatment.
