U.S. Nuclear Regulatory Commission
Document Control Desk
Washington, DC 20555

Ladies and Gentlemen:

Subject: Oyster Creek Nuclear Generating Station
Docket No. 50-219
Technical Specification Change Request 267

GPU Nuclear submitted the subject change request to the Nuclear Regulatory Commission on April 15, 1999. The proposed changes provide various clarifications to several sections of the Technical Specifications.

The New Jersey Department of Environmental Protection's Bureau of Nuclear Engineering reviewed the request in accordance with the requirements of 10 CFR 50.91(b). In our review it was noted that portions of changes being requested to Section 2.3 of the Technical Specifications were recently approved in Oyster Creek License Amendment 208. We verbally advised the NRC's Senior Project Manager and GPU Nuclear's Licensing Engineer of this comment.

If you have any questions, please contact Rich Pinney at (609) 984-7558.

Sincerely,

Kent Tosca, Manager
Bureau of Nuclear Engineering
