To the N.R.C. Board:

DOCKET NUMBER 50-275/373 DA
PROD. & UTIL. FAC.

I oppose the expanded storage of radioactive waste at Diablo Canyon. I am concerned and afraid for the safety of the residents of this county. We now have a operating nuclear power plant on the Hogri fault - We do not need a nuclear storage facility here also. The increased racking is not safe. It is not the answer. Please say "NO".
