TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 2561, "Decommissioning Power Reactor Inspection Program," has been revised to reflect updates in the overall decommissioning reactor inspection program and reflect the changes to the core and discretionary inspection procedures. This revision also addressed lessons learned from decommissioning inspectors.

IP 36801, "Organization, Management, and Cost Controls at Permanently Shutdown Reactors," has been deleted from the inspection program. This IP is no longer needed.

IP 62801, "Maintenance and Surveillance at Permanently Shutdown Reactors," has been deleted from the inspection program. This IP is no longer needed.

IP 83801, "Inspection of Remedial and Final Surveys at Permanently Shutdown Reactors," is a major revision and has been revised to include actionable inspection requirements. Guidance was streamlined and reorganized to match up with the listed requirements. The types of surveys and when they could be used was expanded. The content of this procedure was updated to focus on the inspector's efforts on risk informing the inspection.
