**Subject:** Date a response is due for Inspection Report 05000407/2020201  
**Date:** Tuesday, May 25, 2021 1:22:00 PM

---

Dr. Sjoden,

You asked about the inspection report (IR) you received concerning an inspection that was conducted in October 2020 and when you were required to respond to the report. The NRC has experienced a few issues with our document system (ADAMS) recently which prevented some documents from being declared as an "Official Document" in the system. That was the case with IR 05000407/2020201, Accession Number ML20304A216, you received today, May 25, 2021. Because of these issues with ADAMS, you received the IR considerably later than usual. Therefore please note that you will have 30 days from the date you received the inspection report to respond. Your response will be due on June 24, 2021.

Thanks for your question.

Regards,

Craig Bassett  
Research & Test Reactor Inspector  
Office of Nuclear Reactor Regulation
