#### Welcome and Meeting's Purpose

Describe NRC staff efforts for its environmental justice review

# Receive your comments

### Why is the NRC having this meeting?

- Staff is systematically reviewing how
   Environmental Justice is addressed in NRC's programs, policies, and activities.
  - Staff will not be discussing specific ongoing licensing actions
- Soliciting feedback is an important part of this review.

#### What is Environmental Justice?

**Environmental justice** refers to the federal policy established in 1994 by Executive Order (EO) 12898, which directed federal agencies to identify and address disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority and low-income populations.

What is the NRC's current policy on Environmental Justice? In 2004, the Commission issued its "Policy Statement on the Treatment of Environmental Justice Matters in NRC Regulatory and Licensing Actions" (69 FR 52040)

- Consider environmental justice in reviews under the National Environmental Policy Act (NEPA).
- Focus is on disproportionately high and adverse impacts on environmental justice communities.

Commission's April 23, 2021 Staff Requirements Memorandum (ML21113A070)

- A. Evaluate recent Executive Orders and assess whether environmental justice is appropriately considered and addressed given the agency's mission.
- B. Consider the practices of other Federal and State agencies and Tribal governments, and evaluate whether the NRC should incorporate environmental justice beyond implementation through NEPA.
- C. Review the adequacy of the 2004 Commission Policy Statement.
- D. Consider whether establishing formal mechanisms to gather external stakeholder input would benefit any future environmental justice efforts

#### Questions to help inform the NRC staff's Environmental Justice Review (excerpts from 86 FR 36307)

What is your understanding of what is meant by environmental justice at the NRC?

When the NRC is conducting licensing and other regulatory reviews, the agency uses a variety of ways to gather information from stakeholders and interested persons on environmental impacts of the proposed agency action.

- How could the NRC expand how it engages and gathers input?
- What formal tools might there be to enhance information gathering from stakeholders and interested persons in NRC's programs, policies, and activities?
- Can you describe any challenges that may reduce your ability to engage with the NRC on environmental justice issues?

- How could the NRC enhance opportunities for members of environmental justice communities to participate in licensing and regulatory activities?
- What ways could the NRC enhance identification of environmental justice communities?
- What has the NRC historically done well, or currently does well that we could do more of or expand with respect to environmental justice, including engagement efforts?
- In your view, what portions of the 2004 Policy Statement are effective?

- Would you recommend that NRC consider any particular organization's environmental justice program(s) in its assessment?
- Looking to other Federal, State, and Tribal environmental justice programs, what actions could the NRC take to enhance consideration of environmental justice?
- Considering recent Executive Orders on environmental justice, what actions could the NRC take to enhance consideration of environmental justice?
- Are there opportunities to expand consideration of environmental justice at the NRC, considering the agency's mission? If so, what are they?
