Subject: [External_Sender] FW: Fee Exemption Request for NEI White Paper, "Development of Adversary Timelines"

Todd;

I appreciate your call this morning.

After discussing internally, I can confirm NEI's intent:

NEI plans to make the final version of the white paper available for use by both members and non-members; therefore, NRC review and endorsement of the white paper will promote a consistent approach to the development of adversary timelines by all power reactor licensees.

Thank you,
Bill Gross
