Freedom of Information Act (FOIA) and Privacy Act (PA) Requests, Appeals, and Consultations
Received During the Period of July 16 – July 23

Tracking Number	Requester's Name	Requester's Organization	Request Description as submitted by requester	Received Date
2021-000204	Mari C. Conlon	Haley & Aldrich Inc.	Records pertaining to 466 Devon Park Drive, Wayne, Pennsylvania, formerly operated by Nycomed Amersham, including archived information, include correspondence, reports, sampling plans, data and/or documentation pertaining to the above referenced site, NRC license 37-30243-01 or Docket No. 030-33936 (licensed from 1995 through 2000). Specifically we are seeking Form 314 and/or any records dated post August 26, 1999 regarding termination of the license and a radiological survey (requested by the NRC via the correspondence in August 1999) of the rooms where radiological material was used as well as sinks and drain pipes potentially exposed to radiological materials.	07/16/21
2021-000205	Michael Ravnitzky		A copy of the J&A (Justification & Approval) Log found in the NRC contracting/acquisition Office, covering the last three years, and a copy of each J&A document during calendar year 2021 to date	07/19/21
2021-000206	Lyndsi Watson	Idaho National Laboratory	A copy of INPO 83-047 (NUTAC). Component verification and system validation guideline. Institute of Nuclear Power Operations/ CRDR NUTAC, December 1983	07/20/21
2021-000207	David E. Nunberg	Dominion Energy	A copy of NUTAC INPO 83-047 (Component Verification and System Validation Guideline)	07/20/21
2021-000208	Kevin A. Spohn		R.F. Feynman notes pertaining to topological algorithms, nonsymmetric matrix equations, expectation values, the Møller–Plesser process of perturbation, Brillouin Theorem, quantum tunneling, the Gram-Schmidt Process (Lin. Alg.), trace algorithms, and/or quantum perturbation theory, from 1979-1988	07/20/21
2021-000209	Breton Peace		A copy of all Institute of Nuclear Power Operations (INPO) Peer Review Reports from 1996 to 1997	07/21/21

NRC Accepted a Subsequent License Renewal Application from Duke Energy Carolinas

On July 22, 2021, the NRC staff accepted a subsequent license renewal application (SLRA) from Duke Energy Carolinas, requesting an additional 20 years for the already-renewed operating licenses of Oconee Nuclear Station, Units 1, 2 and 3 (ONS). If approved for subsequent license renewal, ONS will extend its licenses to February 6, 2053, October 26, 2053, and July 19, 2054, for Units 1, 2, and 3, respectively. The review is scheduled to take 18 months. ONS is the sixth SLRA accepted for review.

NRC Held a Public Meeting on Draft Revision 1.2 of the Accident Tolerant Fuel Project Plan

On July 22, 2021, the NRC staff held a public meeting with industry representatives to solicit stakeholder feedback on the draft Revision 1.2 of the Accident Tolerant Fuel Project Plan (Agencywide Documents Access and Management System Accession No. ML21188A117). Approximately 65 representatives from industry and members of the public attended the meeting. Representatives from the Nuclear Energy Institute (NEI) and Framatome provided several high-level comments for the NRC staff to consider, and NEI stated their intent to submit a letter with further detailed comments by August 6. The NRC staff plans to consider the comments received while finalizing this revision of the plan.

NRC Staff Met with the State of Indiana on the Process to Become an Agreement State

On July 20, 2021, the NRC staff met with members of the Department of Homeland Security of the State of Indiana to discuss Indiana's intent to become an Agreement State (Agencywide Documents Access and Management System (ADAMS) Accession No. ML21180A467). Topics included an overview of the Agreement process, the content of an application, and the criteria used to evaluate the application. This orientation meeting was conducted in person at the State's offices in Indianapolis. The State of Indiana submitted a letter of intent to become an Agreement State on June 11, 2021 (ADAMS Accession No. ML21166A134).

NRC Staff Met with the Federal Permitting Improvement Steering Committee

On July 23, 2021, the NRC's Chief Environmental Review Permitting Officer, the Deputy Executive Director for Reactor and Preparedness Programs, and Environmental Center of Expertise staff met with the new Federal Permitting Improvement Steering Committee (FPISC) Executive Director, Christine Harada, for introductory discussions. The NRC staff provided Director Harada with an overview of NRC's regulatory framework and discussed FPISC activities and priorities, including the recently introduced Federal Permitting Reform and Jobs Act. FPISC's goal is to ensure timely, high quality, environmental decisions across the federal government.

NRC Staff Participated in Nuclear Energy Institute Conference

On July 14, 2021, the NRC staff made presentations at the annual Nuclear Energy Institute (NEI) access authorization (AA) / fitness for duty (FFD) conference. For AA, topics included the various federal databases being used and planned for use by the staff to enhance the criminal history check process, and the process for licensees to participate in the FBI's Record of Arrest and Prosecution (RAP) Back service. For FFD, topics included a review of summary drug and alcohol testing and subversion attempt data, and updates on rulemaking activities.

NRC Held Observation Meeting on Training and Qualification Regulatory Guide

On July 15, 2021, the NRC staff held an Observation Meeting to discuss Revision 1 of Regulatory Guide 5.75, "Training and Qualification of Security Personnel at Nuclear Power Reactor Facilities" (Agencywide Documents Access and Management System (ADAMS) Accession No. ML21179A333). The meeting addressed comments and questions from NEI. The NRC staff provided a presentation during the meeting in response to these comments and questions, and addressed questions that attendees posed verbally during the meeting.
